

Electrical Car Charging Station

Need to recharge while visiting Tarboro? The Town through a grant by the NC Dept. of Transportation installed a two car electric charging station for these type alternative vehicles. Even better, is that it's completely FREE of charge. The station is located behind the Tarboro Edgecombe Chamber of Commerce at 509 Trade Street. Two parking spots are available to be used while charging. It's simple - pullup, charge up, visit downtown and in no time you will be on your way!
